**For Immediate Release**

**Douglas Elliman Launches Monthly New Signed Contracts Reports**

*Authored by Jonathan Miller of Miller Samuel, These Reports Provide Fresh Market Insights for Agents and Consumers*

**New York, NY** (June 17, 2020) –[Douglas Elliman](#) announces today the launch of three regional “new signed contracts” reports for New York, Florida, and California. The new monthly reports target contract and listing data signed during each month by property type and price range. The New York report covers Manhattan, Brooklyn, Long Island, Hamptons, and the North Fork. The Florida report includes the counties of Miami-Dade, Broward, Palm Beach, Pinellas, and Hillsborough. The California report contains the counties of Los Angeles, Orange, and San Diego. Jonathan Miller, president and CEO of Miller Samuel and author of the widely regarded Elliman Report series for more than twenty-five years, is the exclusive author of this new series.

“At Douglas Elliman, we look to raise the bar in ways that provide our clients with better information, empowering them to make more informed home buying and selling decisions,” said Scott Durkin, president and COO of Douglas Elliman. “Our monthly new signed contract reports are the missing piece of the puzzle in our expansive closed sales reporting format, providing a current read on market conditions.”

“We have always endeavored to help real estate agents and consumers better gauge near-term market trends and bring greater transparency to the market,” said Jonathan Miller. “While our existing family of quarterly market reports, based on closed sales data, provide a neutral benchmark of market conditions, this new report will provide additional insights for market participants. We are thrilled to bring additional and useful context to the residential housing markets we analyze.”

The Elliman Market Report series has been the gold standard in residential real estate information and an essential reference for consumers, the media, financial institutions, government agencies, academia, researchers and real estate professionals.

This regional series of new signed contracts reports will premiere the third week of June for May activity. Subsequently, the report will be published during the first week of every month, reporting on new contract and new listing activity signed within the prior month.

In addition to the data-centric report, a full suite of easy to read social media and email campaign creative assets will be deployed to agents and available on the recently redesigned Elliman.com.
